

Migration.

Expertise and Consulting Services for a successful migration from Project Online to Project Server Subscription Edition (SE).

Microsoft has officially announced the **end of life for Project Online on September 30, 2026**. Project Server Subscription Edition is suitable for organizations that continue to rely on traditional waterfall methods. It can be deployed either on-premises or in the Azure cloud, offering a proven and stable environment for structured project control.

Expertise

Campana & Schott offers consulting services to support organizations in **migrating from Project Online to the Subscription Edition of Project Server**. Drawing on decades of product experience, we help ensure a smooth transition with minimal disruption tailored to each customer's specific project landscape.

A long-standing partnership with Microsoft.

We are characterized by enthusiasm and a deep understanding of Microsoft's technologies and visions. This enables our consultants to develop and offer tailor-made strategies and solutions on this basis - and has been doing so for more than 20 years.

Microsoft Cloud

- Infrastructure (Azure)
- Data & AI (Azure)
- Digital & App Innovation (Azure)
- Business Applications
- Modern Work
- Security

Our approach

Assessment

We review your current usage and identify potential evolutions.

Choice

We help you select the most suitable migration approach, scripting-assisted methods, semi-automatic migration, or even partner-based migration tool based on existing data.

Flexibility

You choose what is migrated, down to projects, resources, cost, users or SharePoint content.

Support and guidance

We provide expertise, close support, data hosting and governance to ensure a smooth and successful migration.
